WAR DIARIES, C.A.S.F.

Instructions for Compilation and Despatch

1. A War Diary is **SECRET**.

2. The War Diary takes the place of the Historical Record when on active service. (K.R. Can. Para. 1530). Its objects are: to supply authentic material for the history of the unit, and of the force; to furnish a historical record of operations; and to provide data upon which to base improvements in training, equipment, organization and administration.

3. Unless otherwise ordered, the original and duplicate copies are sent on the first day of the succeeding month, through the usual channels, to the A.G., 2nd Echelon, wherever that office may be. The triplicate copy may be held by the unit for three months and then forwarded, also through the usual channels, to A.G., 2nd Echelon.

4. Post-war disposal will be as under:

Original—retained at Ottawa for historical purposes.

Duplicate—to British Record Office for historical purposes.

Triplicate—to unit for custody with unit records.

5. The War Diary will be entered up daily on M.F.M. 11 and rendered monthly in triplicate (Mobn. Instr. for C.M. 1937. App. "C"). Each entry will be initialled by the officer detailed to keep the War Diary, which will be signed at the end of each month by the commander. (F.S.R. Vol. II, Sec. 35, para. 3 iii).

6. The following should be recorded daily as events occur:

(i) Important orders, instructions, reports, messages or despatches received and issued, and decisions taken. *Original documents* should be attached as appendices to the Original copy of the War Diary.

(ii) Daily map location, employment, movements and dispositions of unit headquarters and of batteries, companies, etc. March tables should be attached as appendices.

(iii) Important movements of officers and matters relating to the duties of each branch of the staff. A complete set of the *routine orders and instructions, Part I Orders*, issued by the unit during the month should be attached as an appendix to the original copy.

(iv) Detailed account of operations—to include:—
Exact hour, location and circumstances of important occurrences. Movements and names of neighbouring units. Commanders of batteries, companies, etc., names of Officers and number of O.R. (i) engaged and (ii) battle casualties. Dispositions, activities and identity of enemy forces. Prisoners and trophies captured. Ammunition expended. Factors affecting operations, topographical and climatic. *Maps and sketches* showing dispositions of batteries, companies etc., at important phases. The record of *communications, both written and verbal*, received or despatched during active operations as an appendix. A complete set of the *operation orders and instructions* issued during the month. Notes on conferences and *reports* rendered to higher formations, or received from lower formations, as appendices to the original copy.

(v) Nature and description of trenches, field works or accommodation occupied or constructed. Meteorological notes.

(vi) Changes in establishment or strength. Names and ranks of officers and number of O.R. Attachment of units and individuals. Reinforcements. *Copy of Part II Orders and Weekly Field Returns of Officers and O.R.* should be attached as appendices to the original copy. Changes in organization, stores, transport, etc.

7. It is essential that all copies of both text and appendices are legible. Appendices will be numbered and referenced to the text in the last column of the form. Current issues of any regimental publication should be attached.

8. It will be found convenient at the end of each month, when the War Diary is being completed and the correspondence in unit files for the month is being reviewed and distributed (F.S.R. Vol. I, sec. 171, para. 3) if the material considered to be of historical value in the light of the above is attached as appendices to the original copy of the War Diary.

9. A good war diary makes possible the accurate and detailed reconstruction of circumstances, conditions and action.

NOTE: If monthly diary is more than one inch thick, use a second folder. If appendices are bulky, tie folder up with tape or string to make a firm package.

PRESERVE IMPORTANT ORIGINAL DOCUMENTS FOR POSTERITY: INSERT THEM AS APPENDICES IN ORIGINAL COPY OF WAR DIARY

THE EXTRACTION AND RETENTION OF APPENDICES, MAPS, ETC., FROM A WAR DIARY IS AN OFFENCE UNDER THE OFFICIAL SECRETS ACT

UNIT OFFICE FILING SYSTEM AND RECORDS

"Every office will arrange for the filing and custody of its own correspondence." (F.S.R. Vol. I. Sec. 171.3.)

1. *Titles and Numbering of Files.*

A simple filing system adaptable for use in any military office at home or in the field is illustrated by the "List of File Titles" overleaf.

All documents handled by a unit fall into one or other of the nine categories enumerated, 1 to 9. The titles of the nine main divisions are based on British army operations, organization, administration and the regulations governing. Each title may be broken down into ten component parts or sub-titles, by adding a dash and subsidiary numbers 0 to 9. In turn each of these may be further broken down by adding a second dash and a third digit, and if necessary a third dash and a fourth digit. Thus 4-7-3 might be "Cooking Course at Kingston." According to circumstances, a fighting unit would expand the 1-3 prefix to accommodate all arms and services with which it may be concerned.

2. *Date reference.*

In giving communications a reference number, it is convenient to use the date system of four figures indicating day and month, e.g. 0102 for 1st February; 3010 for 30th October.

3. *Combined Numeration.*

If the systems outlined in paras 1 and 2 are combined, by placing the four date figures under the subject file numbers, a simple and informative method of reference results, thus

$$\frac{2-6-1}{0804}$$

might be immediately identified as a communication dealing with replacement of gas masks, dated 8th April.

NOTE.—This method is not applicable to signal messages, A.F.C. 2128, which bear serial numbers 1 to 9999. The use of dashes eliminates confusion between serial numbers and file numbers.

4. *Documents for Preservation.*

The monthly review of correspondence (F.S.R. Vol. I, sec. 171.3) is facilitated and future confusion avoided by jacketing the material in "Category ii" (i.e., "no longer required", etc.) to conform with the system.

5. *Correspondence in the Field.*

The functioning of the office of a formation or unit during active operations may be simplified by keeping a log or register of all orders and messages, written or verbal, received or sent during the action. This may conveniently be done by extending the use of the "Field Register of Communications Received or Despatched", (Army Form 2040, F.S.R. Vol. I. sec. 171) to include verbal as well as written orders and messages in chronological order as received or sent.

Time of sending and of receipt are of importance second only to time of event, and should be entered both on the office copy of every field message or other document, and in the log or register. A carbon copy for contemporary reference of the commander or others concerned is desirable.

A brief précis of written orders, reports and messages, with the sender's number, is sufficient, for they will be kept on file. But particular care is necessary in making entries of times of moves and of verbal orders, reports or conversations, by telephone or otherwise, which in the stress of action, may not otherwise be recorded on paper. In battle, operations messages dealt with by one officer may number over twenty-five per hour for several hours on end.

The record should be kept convenient to the telephone. Entries may be made by a clerk, or by the officer on duty at the telephone.

Such a record is invaluable to the commander in making appreciations of the situation during the action, and in compiling his report on the action afterwards. It is contemporary evidence of the highest quality, and therefore is of the highest historical value, and should be attached as an appendix to the original copy of the War Diary, together with the original documents sent and received.

(Appendix to Routine Order No. 147 C.A.S.F.
22 Nov. 39).

PART 1 ORDERS

by

Capt C.D. McQuarrie

Camp Commandant

Last Order No. 2
Dated 13 Mar 45.

Order No. 3
20 Mar 45.

1. NEXT OF KIN

Attached as Appx 'A' to this order is verification of Next of Kin of all ORs. All personnel will check for any errors or omissions and report same, if found, to the Camp Office immediately.

2. DISCIPLINE

L of C Routine Order 122/45 is repeated herewith for info and compliance.

1. Military Police reports recently received reveal an increasing tendency in officers and other ranks to ignore orders issued by this Headquarters relating to curfew, the unauthorized carriage of cives in War Department transport, the failure to vacate cafes and places of entertainment before the hour ordered for closing, the order prohibiting the taking of meals in civilian restaurants.

2. The reason for the above order is manifest. It is pointed out, however, that the failure to observe the curfew in BRUSSELS has encouraged the civilian population to do likewise, and has made it difficult for the civilian police to check and prevent breaches of curfew, particularly when civilians are in the company of members of the Allied Expeditionary Force.

3. In the past, breaches of these orders may have sometimes been treated with leniency, but it will be brought to the attention of all ranks that in future, such breaches will normally be followed by stern disciplinary action irrespective of the offender's rank.

3. CAFES

The w/m cafes are placed "Out of Bounds" to the wef 16 Mar 45.

"De Welkom" Prootstraat, 5, POPERINGHE
"A La Belle Vue" Ieperstraat, 151 POPERINGHE.

4. IMPERIAL WAR GRAVES COMMISSION

An office of the I.W.G.C. has now been established at 35 Rue d'Elverdinghe, YPRES. The enquiry office for grave location will be opened daily, except Sunday, from 09 hrs till 1200 hrs, and from 1400 hrs till 1730 hrs.

On Sunday, enquiries may be made with Mr. Piper at Monsieur Hector Descomps Butcher, Rue au Deuné, Haterstraat, YPRES.

5. SHIRTS WITH COLLAR - BLACK TIES

Being into consideration black ties already issued to unit regts for leave personnel, an automatic issue of one tie per OR is not being made to all units on the basis of their strength OR etc. Although stocks do not admit a similar general issue of shirts with collars, this item has been available during the past few months so that all units should now have sufficient to outfit leave personnel.

In future, therefore, black ties and shirts with collar will be normal OR and females will be supplied accordingly.

Issue of black ties will be governed by the regulations of HQ (CI & G) 700 and Overseas CO 5275 of 15 May 45.

When the tie is not worn, the blouse will be buttoned to the top. During the winter months, 1st May to 31st May, one top button only of the buttoned blouse will, except on ceremonial parades, be left undone at the discretion of the OC.

CANADIAN MILITARY HEADQUARTERS

APPENDIX No. A

RECORDS OFFICE,
Government Building,
Bromyard Avenue,
ACTON, W.3.

BATTLE AND FATAL CASUALTIES:

24 Jul 45.

In anticipation of requests for lists of casualties by Units, the attached roll is forwarded to the Unit under your Command. It includes the names of all personnel reported as battle casualties with information in code form as to the nature of the casualty, the form in which the casualty was reported and explanatory remarks where applicable.

2. The casualties listed, based on reports made at the time, occurred while the individuals were serving on the strength of the Unit, but not while serving with other Units or Headquarters formations.

3. A copy of the codes used is attached to the list. Units may wish to decode and rearrange in the form considered advisable for themselves for historical or other record purposes. Further copies cannot be provided by this office, but it is suggested that a copy in the form made by the Unit, together with this roll, be attached to the Unit copy of the War Diary.

4. A complete set of all such Unit lists is being furnished to D.D.History, CMHQ., and another to the Director of Records, DND.

5. Any information regarding individuals in the list still reported as Missing, Prisoner of War, or Missing Presumed Dead, should be reported promptly. The search for these continues. Dates, beside names, of returned or repatriated Prisoners of War are those on which they were recovered or reported back.

6. These lists, produced by Machine Records, contain all "A" List and "PW" List casualties and "C" List deaths. For your information, Casualty Lists are maintained as under:

Cons.Cas.List "A" : First report of battle casualty and any subsequent change of classification (e.g. "Wounded", subsequently "Died of Wounds". "Missing", subsequently "Reported Killed.")
Extracts of information, received through 2nd Echelon or directly from hospital originating in Unit reports, R.A.P., Fd. Amb., Dressing Stations, etc.

Cons.Cas.List "B" : Movement of battle casualties within Medical Installations subsequent to the first report acted upon.

Cons.Cas.List "C" : All physical casualties other than battle.

"PW" List : Casualties reported through the Protecting Power, International Red Cross, intercepted letters and letters received from next of kin and captured documents and records.

7. The Machine Records Lists sent are complete up to published Casualty Lists:-

- "A" List 585 - dated 24 Jun 45.) - amended in ink up to and
- "C" List 1946 - dated 21 Jun 45.) including the date of this
