FIRE PRECAUTIONS.

Appendix (C)

1. Every precaution will be taken to prevent the breaking out of fires in these quarters.

2. Immediately a fire is discovered, all ranks, not on point duty, will assemble in the vicinity of the building and await instructions.

3. GASOLINE & KEROSENE OIL.

These commodities will be stored in a safe place away from all stoves and heaters. The containers will be plainly marked so that the contents will be known to all ranks. Matches will NOT be lighted nor will smoking be permitted in the room where such liquids are stored. A box of sand or dry earth will be placed so that should a fire start, the sand etc. may be thrown on the blaze. DO NOT try to put out an oil fire with water, it will only cause the fire to spread.

4. HAY & STRAW.

In buildings or rooms where hay, straw or other combustible "stuffing" is stored, smoking is prohibited.

5. GENERALLY.

Bonfires are NOT permitted in Camps. Lighted matches and burning cigarettes will NOT be thrown away. Fire-wood for cook stoves will NOT be stored beside the stove. Odd bits of paper and oily rags will be carefully burned so as NOT to accumulate and become a fire hazard.

6. This notice will be posted in a conspicuous place and detachments commanders will read and explain the importance of them to all ranks.
