3. CONSERVATION OF TIRES AND GASOLINE

Due to the vital and paramount need to conserve tires and gasoline, Officers Commanding Formations, Units and Detachments will ensure that D.N.D. Vehicles of any type are used most sparingly. It is not intended that the use of vehicles for training or operations should be restricted, but the indiscriminate use for administrative or any other purpose must be definitely curtailed.

Officers Commanding Formations, Units and Detachments will draw the attention of D.N.D. vehicle drivers to the amendment published to Camp Standing Orders in Divisional Routine Order No.497 dated 30 Mar 42, and they will ensure that vehicle maintenance is of a high degree. Careless driving such as running over "pot-holes" in roads, scraping or hitting curbs, etc., must not be tolerated.

The necessity of conserving rubber and gasoline should be apparent to all, and Formation, Unit and Detachment Commanders will make personally sure that the utmost care in the use of D.N.D. vehicles is being taken. Tires are a vital need of the Army at present and all ranks must appreciate that fact.

5. CHANNELS OF COMMUNICATION

1. Routine Order 591 is cancelled and the following substituted therefor:-

2. A great many communications from serving soldiers are received at National Defence Headquarters addressed direct to the Minister of National Defence, to the Secretary and other officers at Defence Headquarters. This includes communications from serving soldiers address direct to the Dependents' Allowance Board.

3. Quite apart from the irregularity of this procedure, delay ensues in dealing with the questions raised in these communications, as, in nearly every case, the matter has to be referred back to the District or Unit concerned to obtain the requisite information.

4. In nearly every case, the subject of the communication could more readily be dealt with locally.

5. Communications received have in no way been confined to complaints, but have included ideas to assist in the conduct of the war.

6. All ranks, are therefore, to be informed of the correct procedure for bringing to notice of higher authority any matters whether it be complaint or otherwise.

7. It is to be impressed upon officers, warrant officers, and non-commissioned officers that it is their duty to give proper attention and careful consideration to all matters brought to their notice by those under their command, and in the case of complaints that the officers or other rank concerned is duly paraded in accordance with Sections 42 and 43 of the Army Act and notes thereto. (See K.R. (Can) 417-19)

8. Officers and other ranks are to be informed that direct communication with higher authority except through the immediate superior concerned is forbidden.

9. Attention is directed to Routine Order 1060, as amended by Routine Order 1072 regarding direct communication with the Naval, Military or Air Force officials of another country.

10. This order will be brought to the notice of all recruits and will be published in unit orders at six monthly intervals and will be read out on parade at the first convenient opportunity after publication. (Effective 12 Aug 41)

2. To facilitate the maintenance of proper inflation, air compressors have been installed in all R.C.O.C. M.T. Workshops and in addition air compressors are being installed in all Unit Garages. Mechanical tire pumps form part of vehicle equipment on 30cwt. and larger vehicles.

3. SIMPLIFICATION OF DRILL

The object of drill is to teach and maintain discipline. It is essential that it should be done extremely well. Slovenly Drill impairs discipline. The quality of Drill is all important and this matters far more than the variety and quantity of Drill practices. It is desirable that no more time should be spent on it than is absolutely necessary to achieve its object of teaching and maintaining some part of discipline. Thus it is essential that while the standard of drill should be higher than it has ever been before it is also necessary to reduce the amount of time which can be devoted to it. Accordingly, for the duration of the war, the number of movements in close order and arms drill will be reduced as described below:-

Close Order Drill

- (a) Marching in slow time and turning in slow time will not be taught.
- (b) Changing step and moving in diagonal march will be taught but not unnecessarily practised.
- (c) Changing direction of squads, platoon, etc., in line by forming will not be taught. Changing of direction will be executed by wheeling.
