2. PEDESTRIAN SAFETY
2-A

In recent months a considerable number of Canadian soldiers have been injured seriously, and in some cases fatally, through their own neglect in not observing common sense safety precautions while walking on public highways.

Soldiers' uniforms, due to design and colouring, are very difficult to see at night or when visibility is reduced by fog.

~~With~~ the limited head-light range of vision now in effect drivers operating vehicles in the blackout are placed under a severe strain. Pedestrians can help to cut down these accidents by always being on the alert and ready to protect themselves from being run down by approaching and passing vehicles.

Where possible roads and streets should be crossed at proper crossing places. Pedestrians should at all times walk towards and facing the oncoming traffic on roads where there are no footpaths.

3. DISCIPLINE - COMPLAINTS AND SUGGESTIONS

Reference Overseas R.O. 37.

1. Any officer who wishes to put forward any complaint or suggestion will do so in writing to his commanding officer through the adjutant. If he wishes, he may request that a complaint be referred by his commanding officer to appropriate higher authority. (K.R. (Can) para 417, A.A. Sec 42.)
2. Any soldier who wishes to put forward any complaint or suggestion will do so to his company (or equivalent) commander. If, after the matter has been investigated by his company (or equivalent) commander, he is not satisfied, he may represent it through his company (or equivalent) commander to his commanding officer. If he is still not satisfied, he may represent it through his commanding officer to the G.O.C.-in-C., First Canadian Army, or the Senior Officer, Canadian Military Headquarters, as may be appropriate. (K.R. (Can) para 417, A.A. Sec 43).
3. In addition, an officer or soldier who wishes to bring any grievance to the notice of an inspecting officer may do so through his adjutant in the case of an officer, or through his company (or equivalent) commander in the case of a soldier. Its object is to ensure that any representations officers and other ranks wish to make are effectively dealt with in the most expeditious way possible, and that proper discipline in the Army is maintained. Any other method of putting forward complaints or suggestions, such as anonymous representations, or combined petitions, is expressly forbidden by K.R. (Can) vide paras 417(c) and 419.

4. CASUALTIES - NOTIFICATION TO NEXT OF-KIN

4-A

1. Immediately Officer i/c Records receives authentic information that a casualty has occurred, he will inform the next-of-kin by cable via Records, Canada, or by telegram in the United Kingdom of such casualty and of any subsequent changes in status.

2. After the recent operations, considerable unnecessary hardship was caused to next-of-kin by serving personnel sending unauthentic information regarding friends direct to next-of-kin describing, for example, how an individual was killed who subsequently has been reported a Prisoner of War, etc. All personnel must realize that it is kinder to send no information than to send incorrect information and that everything possible will be done by Officer i/c Records as soon as reliable information is provided through the proper channels.

3. All ranks must appreciate the above and will, under no circumstances, pass on any information regarding casualties. Letters and cables of condolence may be sent but only after sufficient lapse of time to permit the next-of-kin to receive the official notification.

1. It is urgently necessary in the national interest to take effective steps to secure, during the coming autumn and winter, a considerable reduction in the amount of passenger traffic by rail; particularly when a long journey is involved. 4. ECONOMY IN AIR MAIL TRANSPORT

4-A 1. The following comparative table shows the immense difference in the weight of the various types of air-borne mails:-

A 1-lb packet will contain	30 air-mail letters (Approx)
or	137 air-letter forms (Approx)
or	168 air postcards (Approx)
or	3,500 airgraph letters (Approx)

2. In view of the above, and the necessity of saving space on freight-carrying aircraft, all ranks are urged to make use of the Airgraph Service in preference to other types of communication when corresponding with relatives or friends in those countries to which the service is available, and to encourage them to do the same.

3. The Airgraph Service is quick and reliable, and because many thousands of airgraph letters weigh only a few pounds, room can frequently be found for them, when other correspondence may be held up for want of space. Furthermore, when unfavourable weather interferes with west-bound air service and causes an accumulation of mail, airgraph is least affected.

(C.A.O. RO 2746/42)

5. TYRE PRESSURES

5-A 1. Effective immediately, all units will paint tyre pressures of all wheeled WD vehs on the edge of the fenders directly above the wheel hubs.
