## WAR DIARIES, C.A.S.F.

### Instructions for Compilation and Despatch

1. A War Diary is **SECRET**.

2. The War Diary takes the place of the Historical Record when on active service. (K.R. Can. Para. 1530). Its objects are: to supply authentic material for the history of the unit, and of the force; to furnish a historical record of operations; and to provide data upon which to base improvements in training, equipment, organization and administration.

3. Unless otherwise ordered, the original and duplicate copies are sent on the first day of the succeeding month, through the usual channels, to the A.G., 2nd Echelon, wherever that office may be. The triplicate copy may be held by the unit for three months and then forwarded, also through the usual channels, to A.G., 2nd Echelon.

4. Post-war disposal will be as under:

Original—retained at Ottawa for historical purposes.

Duplicate—to British Record Office for historical purposes.

Triplicate—to unit for custody with unit records.

5. The War Diary will be entered up daily on M.F.M. 11 and rendered monthly in triplicate (Mobn. Instr. for C.M. 1937. App. "C"). Each entry will be initialled by the officer detailed to keep the War Diary, which will be signed at the end of each month by the commander. (F.S.R. Vol. II, Sec. 35, para. 3 iii).

6. The following should be recorded daily as events occur:

(i) Important orders, instructions, reports, messages or despatches received and issued, and decisions taken. *Original documents* should be attached as appendices to the Original copy of the War Diary.

(ii) Daily map location, employment, movements and dispositions of unit headquarters and of batteries, companies, etc. March tables should be attached as appendices.

(iii) Important movements of officers and matters relating to the duties of each branch of the staff. A complete set of the *routine orders and instructions, Part I Orders*, issued by the unit during the month should be attached as an appendix to the original copy.

(iv) Detailed account of operations—to include:— Exact hour, location and circumstances of important occurrences. Movements and names of neighbouring units. Commanders of batteries, companies, etc., names of Officers and number of O.R. (i) engaged and (ii) battle casualties. Dispositions, activities and identity of enemy forces. Prisoners and trophies captured. Ammunition expended. Factors affecting operations, topographical and climatic. *Maps and sketches* showing dispositions of batteries, companies etc., at important phases. The record of *communications, both written and verbal*, received or despatched during active operations as an appendix. A complete set of the *operation orders and instructions* issued during the month. Notes on conferences and *reports* rendered to higher formations, or received from lower formations, as appendices to the original copy.

(v) Nature and description of trenches, field works or accommodation occupied or constructed. Meteorological notes.

(vi) Changes in establishment or strength. Names and ranks of officers and number of O.R. Attachment of units and individuals. Reinforcements. *Copy of Part II Orders and Weekly Field Returns of Officers and O.R.* should be attached as appendices to the original copy. Changes in organization, stores, transport, etc.

7. It is essential that all copies of both text and appendices are legible. Appendices will be numbered and referenced to the text in the last column of the form. Current issues of any regimental publication should be attached.

8. It will be found convenient at the end of each month, when the War Diary is being completed and the correspondence in unit files for the month is being reviewed and distributed (F.S.R. Vol. I, sec. 171, para. 3) if the material considered to be of historical value in the light of the above is attached as appendices to the original copy of the War Diary.

9. A good war diary makes possible the accurate and detailed reconstruction of circumstances, conditions and action.

NOTE: If monthly diary is more than one inch thick, use a second folder. If appendices are bulky, tie folder up with tape or string to make a firm package.

**PRESERVE IMPORTANT ORIGINAL DOCUMENTS FOR POSTERITY: INSERT THEM AS APPENDICES IN ORIGINAL COPY OF WAR DIARY**

**THE EXTRACTION AND RETENTION OF APPENDICES, MAPS, ETC., FROM A WAR DIARY IS AN OFFENCE UNDER THE OFFICIAL SECRETS ACT**

## UNIT OFFICE FILING SYSTEM AND RECORDS

"Every office will arrange for the filing and custody of its own correspondence." (F.S.R. Vol. I. Sec. 171.3.)

### 1. *Titles and Numbering of Files.*

A simple filing system adaptable for use in any military office at home or in the field is illustrated by the "List of File Titles" overleaf.

All documents handled by a unit fall into one or other of the nine categories enumerated, 1 to 9. The titles of the nine main divisions are based on British army operations, organization, administration and the regulations governing. Each title may be broken down into ten component parts or sub-titles, by adding a dash and subsidiary numbers 0 to 9. In turn each of these may be further broken down by adding a second dash and a third digit, and if necessary a third dash and a fourth digit. Thus 4-7-3 might be "Cooking Course at Kingston." According to circumstances, a fighting unit would expand the 1-3 prefix to accommodate all arms and services with which it may be concerned

### 2. *Date reference.*

In giving communications a reference number, it is convenient to use the date system of four figures indicating day and month, e.g. 0102 for 1st February; 3010 for 30th October.

### 3. *Combined Numeration.*

If the systems outlined in paras 1 and 2 are combined, by placing the four date figures under the subject file numbers, a simple and informative method of reference results, thus

$$\begin{array}{r} 2-6-1 \\ \hline 0804 \end{array}$$

might be immediately identified as a communication dealing with replacement of gas masks, dated 8th April.

NOTE.—This method is not applicable to signal messages, A.F.C. 2128, which bear serial numbers 1 to 9999. The use of dashes eliminates confusion between serial numbers and file numbers.

### 4. *Documents for Preservation.*

The monthly review of correspondence (F.S.R. Vol. I, sec. 171.3) is facilitated and future confusion avoided by jacketing the material in "Category ii" (i.e., "no longer required", etc.) to conform with the system.

### 5. *Correspondence in the Field.*

The functioning of the office of a formation or unit during active operations may be simplified by keeping a log or register of all orders and messages, written or verbal, received or sent during the action. This may conveniently be done by extending the use of the "Field Register of Communications Received or Despatched", (Army Form 2040, F.S.R. Vol. I. sec. 171) to include verbal as well as written orders and messages in chronological order as received or sent.

Time of sending and of receipt are of importance second only to time of event, and should be entered both on the office copy of every field message or other document, and in the log or register. A carbon copy for contemporary reference of the commander or others concerned is desirable.

A brief précis of written orders, reports and messages, with the sender's number, is sufficient, for they will be kept on file. But particular care is necessary in making entries of times of moves and of verbal orders, reports or conversations, by telephone or otherwise, which in the stress of action, may not otherwise be recorded on paper. In battle, operations messages dealt with by one officer may number over twenty-five per hour for several hours on end.

The record should be kept convenient to the telephone. Entries may be made by a clerk, or by the officer on duty at the telephone.

Such a record is invaluable to the commander in making appreciations of the situation during the action, and in compiling his report on the action afterwards. It is contemporary evidence of the highest quality, and therefore is of the highest historical value, and should be attached as an appendix to the original copy of the War Diary, together with the original documents sent and received.

(Appendix to Routine Order No. 147 C.A.S.F.  
22 Nov. 39).

SECURITY OF OFFICIAL INFORMATION

1. All members of a Headquarters, including all signal operators, signal office personnel and drivers of Headquarters cars are reminded that they are employed in a position of trust and are, therefore, under an obligation of secrecy.

2. No military information which may come to a person's knowledge as a result of employment at a Headquarters will be communicated to any person NOT employed at such Headquarters, except when necessary in the performance of duty. Information which may seem quite trivial may possibly give a clue to important military matters, with disastrous results to our forces. Everyone therefore, will make a definite rule NOT to mention any phase of their work to any person or to discuss any phase of their work with another member of the staff, when there is any possibility of being overheard. Particular discretion will be observed when talking on the telephone with regard to military affairs. Signal operators and signal office personnel, likewise all drivers of Headquarters cars, are warned that any conversations regarding military matters they may overhear during the performance of their duties must be treated as secret and confidential.

3. Members of a Headquarters will NOT communicate confidential or secret information to other members of the staff unless it is necessary for the proper performance of their duties.

4. The following are relevant extracts from the Official Secrets Act, 1911 (M.M.L. p. 895) and amended by the Official Secrets Act, 1920 (M.M.L. p. 900) which Acts of the United Kingdom apply to personnel of the Canadian Army (Overseas).

I. A person is guilty of a felony and liable to penal servitude for a term of fourteen years who for any purpose prejudicial to the safety or interests of the State,

- (a) Makes any sketch, photograph, plan, model or note which is calculated to be or might be or is intended to be directly or indirectly useful to the enemy;
- (b) Obtains, records, publishes, or communicates to any other person any secret official code word or pass word, or any sketch, photograph, plan model, article or note or other document or information which is calculated to be or might be or is intended to be directly or indirectly useful to any enemy;

II. A person is guilty of a misdemeanour and liable to imprisonment for a term of two years who,

- (a) Having in his possession any code word, pass word, sketch photograph, plan model, document or information, communicates such code word, pass word, sketch, photograph, plan, model document or information to any person, other than a person to whom he is authorized to communicate it, or a person to whom it is in the interest of the state his duty to communicate it;
- (b) Uses the information in his possession for the benefit of any foreign power or in any other manner prejudicial to the safety or interests of the State;
- (c) Retains any sketch, photograph, plan, model, article, note or document in his possession or control of when he has no right to retain it or when it is contrary to his duty to retain it, or fails to comply with all directions issued by lawful authority with regard to the return or disposal thereof;
- (d) Fails to take reasonable care of or so conducts himself as to endanger the safety of any sketch, photograph, plan model, article, note, document or information.

5. DISCIPLINE- SAFETY PRECAUTIONS TO BE OBSERVED BY TROOPS WALKING OUT DURING THE HOURS OF DARKNESS

5-A

1. Owing to the regrettable number of accidents involving loss of life which have occurred during the hours of "blackout" it is considered desirable that the attention of all ranks should be drawn to the necessity of taking normal precautions when walking in public thoroughfares at night when off duty or on duty as individuals. It should be pointed out that drivers of vehicles are often unable to see pedestrians, particularly those dressed in Khaki, in sufficient time to avert an accident.

2. In places where no footway exists and it becomes necessary to walk in a roadway, pedestrians should walk on the right-hand side of the road, i.e., against the oncoming traffic and not on the left-hand side where there is always the danger of being run down from the rear by the overtaking traffic.

3. All traffic signals must be observed and thoroughfares crossed only at the appointed pedestrian crossings, when these are available.
