2. USE OF MOTOR VEHS

(i) In order to economize to the greatest possible extent in the use of rubber, pet and MT spares it is most important that all ranks be impressed with their personal responsibility in this regard. Anyone using a motor veh must realize that he is using a valuable piece of equipment and is consuming rubber and pet - both essential commodities and both in short sup.

(ii) Driving at excessive speed wastes both rubber and pet and cannot be tolerated. Cornering at speed is another cause of heavy wear on tires and front-axle mechanism and can easily be avoided.

(iii) It will be impressed on all ranks that the speeds laid down in "MT Drivers Regulations" and applicable to the type of veh concerned are maximum allowable speeds and will NOT be exceeded except in cases of emergency or on orders from higher authority.

(iv) Substantial economies in pet and rubber can be effected if normal cruising speeds are kept well below those maximum speeds. Drs can make a valuable contribution to the war effort by applying these principles to their every-day duties.
(4 DRO 1447)

3. DISCIPLINE - SPEEDING

(i) With ref to 4 DRO 1447 if Cdn vchs in charge of an offr are checked for speeding, the offr will be charged under AA 40 for negligence in the care of Cdn vchs and under AA 11 for neglecting to obey Standing Orders, i.e., Regulations governing the use of Cdn Military Tpt.

(ii) OR's in charge of a veh will be dealt with under similar charges as normally for similar offences.

(iii) Cdn Pro Corps personnel will be instructed regarding the above.
