R.C. Church parade Sunday 6 June 43, at 0950 hrs in Marquee No. 6.

3. DISCIPLINE - SAFETY PRECAUTIONS TO BE OBSERVED BY TROOPS WALKING OUT DURING THE HOURS OF DARKNESS

1. Owing to the regrettable number of accidents, involving loss of life, which have occurred during the hours of "blackout-out", it is considered desirable that the attention of all ranks should be drawn to the necessity of taking the normal precautions when walking in public thoroughfares at night when off duty or on duty as individuals. It should be pointed out that drivers of vehicles are often unable to see pedestrians, particularly those dressed in Khaki, in sufficient time to avert an accident.

2. In places where no footway is in existence and it becomes necessary to walk in a roadway, pedestrians should walk on the right-hand side of the road, i.e., against the oncoming traffic, and not on the left-hand side where there is always the danger of being run down from the rear by overtaking traffic.

3. All traffic signals must be observed and thoroughfares crossed only at the appointed pedestrian crossings, when these are available.

3. VENERAL AND SIMILIAR DISEASES  
3-A

1. Stoppages of pay and publication in Part II Orders as a result of veneral disease have been abolished.

2. Attention is directed to the provisions of K.R. (Can) 442 which provides that in every unit there shall be an order that a soldier suffering from veneral disease shall report himself sick without delay and that such order shall be brought to the attention of all personnel of the unit at intervals not exceeding three months. Any breach of such order is an offence under A.A. Sec 11.

3. Due to advances in medical science veneral diseases can be cured quickly, providing the treatment is given early. There also are certain diseases which resemble veneral diseases very closely; these diseases may be veneral or non-veneral in origin but usually respond equally well to treatment provided the treatment is instituted early. Delay in reporting for treatment prolongs the course of the disease and may adversely affect the health for years to come.

4. All ranks who experience any symptoms, or discover any abnormal or unusual conditions in or about their genital organs, will report sick with the least possible delay.

7. FIRE PICQUET DRILL - (Hand Pump Drill) Men for hand pump drill will fall in in single file and number off in fours. Each four forms a crew. A hand pump and three buckets are placed in front of the picquet. The hand pump and three buckets are placed in front of the picquet smartly into position, No. 1 behind the hand pump, Nos. 2, 3 and 4 behind the buckets. HAND PUMP DRILL ACTION: No. 1 takes the pump and doubles to within striking distance of the fire followed by Nos 2, 3 and 4 who place buckets behind No. 1. No. 1 hands the pump to No 2 runs forward and directs the jet at the seat of the fire, No. 2 places the pump in the bucket and starts pumping with short quick strokes. When No 2's bucket is nearly empty No 3 refills it from his bucket from the right, placing the empty bucket to the left and behind No. 2, he then takes over the pumping by first placing his right foot on the stirrup pump and then back over the handle, the pumping being maintained throughout. No. 2 doubles away with the empty bucket to the nearest source of water supply, refills it and falls in against No. 4. This process of changing is carried on until the fire is extinguished.

8. Smoking in the Unit Vehicle Park is strictly prohibited.

9. Fire instructions will be posted in the Bn O.R., Coy Offices and all Coy Notice Boards., and in the Guard Room.
