NOTICE BOARD INFORMATION

3658—TRAINING—RECOGNITION OF CONTAINERS CHARGED WITH WAR GASES —3658

1. A number of accidents have occurred through failure to recognize containers charged with war gases which are issued for training purposes.
2. War gases used for training purposes may be contained in either of the following:—
 - (a) Metal containers painted grey all over and marked with a coloured band or bands.
 - (b) Stoneware bottles marked with a yellow or black band.
3. Such containers will be used or opened only under the supervision of an officer or NCO who has qualified at the Army Gas School or No. 6 (CW) Wing, CTS. This does not apply to generators lachrymatory, as instructions for using these are already given in Gas Training, 1942.
(Ref ACI 855 of 43) (55/4270/5)

3659—TRAINING—SMOKE GENERATORS—USE IN CONFINED SPACES —3659

1. Irritation of the throat and chest may be caused by screening smokes, but concentrations encountered in the open rarely cause ill-effects, and no restriction of normal training in the use of smoke is contemplated or is necessary. Concentrations at short distances down wind of a generator or grenade, or in confined spaces, may be harmful and inside buildings may even be fatal.
2. Smoke generators and smoke grenades of all types will never be functioned or used within confined spaces or buildings.
3. If affected by smoke or forced to remain for more than short periods in high concentrations, personnel should wear respirators, all types of which give full protection.
(ACI 849 of 43) (55/4780/5)

3703—AMMUNITION AND EXPLOSIVES—TAMPERING AND UNAUTHORIZED USE —3703

1. Recent instances of serious or fatal accidents have occurred with 2" mortar ammunition. These accidents not only deprive the Army of personnel, but have a tendency to destroy confidence in the 2" mortar.
2. Recent investigations and Courts of Inquiry indicate that these accidents with 2" mortar bombs, as well as other types of explosives, are due to instructors stripping fuzes for information or instructional purposes and then placing the fuze back in the bomb in a fully armed condition, because it is difficult to return the fuze mechanism to the unarmed state.
3. It is brought to the notice of all ranks that it is strictly forbidden to tamper with ammunition or explosives at any time, or to use them in such a manner as to be contrary to regulations and instructions governing their use.
4. IOOs and AEs will carry out such tests and inspections and make reports on ammunition and explosives as may be authorized from time to time.
5. All cases of ammunition and explosives being of doubtful serviceability will be referred to the IOO of the formation for decision and disposal instructions. The destroying of such doubtful stores will be carried out under the supervision of an IOO.
6. All "Blinds" will be dealt with in accordance with the provisions of para 2 of Overseas RO 3125.
7. All accidents of an explosive nature will be reported and action taken in accordance with Overseas RO 3167 and 3236.
(2/Trg Explos/1/2)

3790—SMALL ARMS—DAMAGE TO PROJECTORS, INFANTRY, ANTI-TANK, DURING TRAINING —3790

1. Damage to cocking rods and rear-end caps of projectors, infantry, anti-tank, is constantly occurring during training due to careless cocking and uncocking.
2. The correct methods of cocking and uncocking are laid down in Small Arms Training, Volume I, Pamphlet No. 24, 1943, Lesson I. The weapon will never be uncocked by simply pressing the trigger.
3. Stripping, other than that authorized in Small Arms Training, will be carried out by armourers only.
(ACI 1271 of 43) (2/Trg Equip/1/4)

3898—IDENTIFICATION CARDS —3898

1. In the event of loss of identification cards MF M182 now being issued to all ranks of the Cdn Army Overseas, the fact of loss will be reported by the OC the unit direct to the OIC Records, CMHQ, with particulars as to rank, surname and full Christian name of officers, and

NOTICE BOARD INFORMATION

regimental number, rank, surname and full Christian name of ORs in addition to the date, place and circumstances of loss.

2. Should the circumstances surrounding the loss be of a suspicious nature or involve a breach of Security, copy of letter reporting loss to OIC Records will be forwarded direct to CMHQ (MI).

3. The OIC Records will report all losses of identification cards to Cdn Army Identification Bureau, NDHQ, through the proper channels on a request for replacement. When identification cards are received as replacements for lost cards, the OIC Records will distribute such cards in accordance with the provisions of Overseas RO 3130.

4. All ranks will carry identification cards MF M182 at all times after they have been issued. ORs will produce their identification cards for inspection at every pay parade. Personnel in possession of AF B2606 will continue to carry it in addition to MF M182. ORs will also continue to carry MB M1, Part I.

5. COs will in all cases investigate the loss of identification cards and, in those cases where the circumstances reveal neglect on the part of the holder, appropriate disciplinary action will be taken.

1302—DEPENDENTS' ALLOWANCE AND ASSIGNED PAY—SOLDIERS —1302
SENTENCED TO LONG TERMS OF DETENTION, IMPRISONMENT,
OR PENAL SERVITUDE

1. Articles 90 and 91 FR & I (Canada), made applicable overseas by Articles 688 and 689 FR & I (Overseas), in their original form provided that a soldier's assignment of pay would be continued in all circumstances as long as dependents' allowance issued in connection with such assignments was paid to the soldier's dependents, subject to the reduction of such assignment to \$20.00 per month in the circumstances set out therein. Under such provisions, payment of assigned pay and dependents' allowance was continued in payment during a period of detention, field punishment or imprisonment, irrespective of the term of the sentence awarded.

ACTION TO BE TAKEN BY TROOPS—(S)

When troops see outbreaks of fire among crops, heathlands, woodlands, etc, it is their duty to assist in extinguishing them by any available means. The greatest care must be exercised in the disposal of lighted cigarette ends, bottles and broken glass, which are potential causes of fire in open country, particularly in dry weather.

(3/Protection/5)

1. Any officer who wishes to put forward any complaint or suggestion will do so in writing to his commanding officer through the adjutant. If he wishes, he may request that a complaint be referred by his commanding officer to appropriate higher authority. (KR (Can) para 417, AA Sec 42.)

2. Any soldier who wishes to put forward any complaint or suggestion will do so to his company (or equivalent) commander. If, after the matter has been investigated by his company (or equivalent) commander, he is not satisfied, he may represent it through his company (or equivalent) commander to his commanding officer. (KR (Can) para 417, AA Sec 43.)

3. In addition, an officer or soldier who wishes to bring any grievance to the notice of an inspecting officer may do so through his adjutant in the case of an officer, or through his company (or equivalent) commander in the case of a soldier. (20/Gen/1/2)

2711—CASUALTIES—NOTIFICATION TO NEXT-OF-KIN—(S) —2711

(45/Gen/1)

2760—DISCIPLINE—LOOTING AND DAMAGE TO PROPERTY—(S) —2760

This Order states that needless damage to billets and requisitioned property, and the removal and looting of private property from houses entered for defence purposes will be regarded as serious offences. The Defence (General) Regulations, 1939, provide that a person who steals from premises which have been subjected to attack by the enemy, whether by aircraft or otherwise, shall be liable to suffer death or penal servitude for life. All cases of looting by persons subject to military law will be tried by GCM unless they have been prosecuted in the Civil Courts.

NOTICE BOARD INFORMATION

3215—LEGAL AID

—3215

1. The need for a legal aid scheme for soldiers serving in the Canadian Army Overseas has become increasingly apparent. In addition to giving legal advice to soldiers in the United Kingdom, a plan has been devised whereby through the courtesy of the Canadian Bar Association, legal assistance will be furnished, in certain classes of cases, to personnel of the Canadian Army Overseas by members of the legal profession in Canada.
2. This aid is available only in respect to civil legal problems, and is not applicable in disciplinary action, criminal offences, or in any matters, such as pay and allowances, which can be dealt with through other channels. The function of this scheme is advisory as to the legal solution and necessary action. The conduct of litigation will not be undertaken by officers rendering aid. The expense of any action taken by the soldier on such advice is to be borne by him.
3. It is also to be clearly understood by all ranks seeking and acting on such legal aid that any advice or assistance rendered is given and received on the condition that the recipient has no right to compensation against either the Crown or the officer or other person giving the same for any loss or damage suffered as a consequence of any negligence in or arising out of the giving of that advice or assistance.
4. In order that a soldier who requires legal advice may have his case disposed of expeditiously, and in appropriate cases forwarded to Canada for attention by the Canadian Bar Association, the following action will be taken forthwith:—
 - (a) Legal Aid Bureaux will be formed at all formation headquarters and will be under the direction of the legal officer appropriate to that formation.
 - (b) Such Bureaux will consist of a panel of regimental officers selected from serving solicitors, where possible one officer from each unit of the formation. While service on the panel is on a voluntary basis, it is expected that all serving solicitors will offer their assistance.
 - (c) The panel of serving solicitors will be maintained by the formation legal officer and he will notify commanding officers of units, and each member of the panel, of the names and units of the serving solicitors comprising the panel.
5. Personnel desiring legal advice may be given permission to consult any of the serving solicitors on their respective formation panels. Commanding officers will ensure that every facility is afforded to personnel desiring advice so that they may receive such advice with the least possible delay.
6. The intention behind the Legal Aid scheme is that soldiers will be able to obtain private legal advice on confidential matters. It is therefore contrary to the intention for commanding officers to insist that the officers rendering such legal aid should disclose to them what transpires in the Legal Aid Bureau, in the sense that the details of the cases, in which advice is given to soldiers of their units, should be made known. It cannot be too strongly emphasized that the assistance given to a soldier over his private affairs is kept entirely as a confidential matter between the soldier concerned and his adviser.
7. Detailed instructions for the guidance of formation legal officers and serving solicitors will be issued separately in Pamphlet form.

3275—PENSION ACT—APPLICATION

—3275

1. It is notified for information that in respect of members of the military forces serving outside Canada, pensions are awarded under the Pension Act when the injury or disease, or aggravation thereof, resulting in disability or death was attributable to or was incurred during military service. No pension can be awarded when disability was due to improper conduct, except that in such cases the Pension Commission may, when the applicant is without earnings or income sufficient to provide maintenance, award such pension as it deems fit in the circumstances.
2. The Pension Act defines "improper conduct" as including wilful disobedience of orders, wilful self-inflicted wounding and vicious or criminal conduct.

3313—CHANGE OF ADDRESS—NEXT-OF-KIN

—3313

1. It is essential to draw to the attention of all ranks the necessity for the maintenance of an up-to-date record of next-of-kin.
2. All ranks are reminded that, in the interests of themselves and of their next-of-kin, it is their duty to report to their COs without delay any change in the name, address or relationship of their next-of-kin. Changes thus reported will be notified to OIC Records in unit Part II Orders.
3. The recording of particular individuals as next-of-kin has no legal effect whatever as regards the distribution of property in the event of death.
4. Personnel should advise those whom they have named as their next-of-kin that they too should report promptly any change in address, as under:—

3322—TRANSPORTATION TO CANADA FOR DEPENDENTS OF MEMBERS —3322
OF THE CANADIAN ARMY OVERSEAS

1. (a) The Canadian Government has authorized free minimum cost ocean and rail transportation, except in the United States, to destination in Canada, for wives, widows, and children under 18 years of age (hereinafter called "dependents") of members of the Canadian Army Overseas (hereinafter called "members"). Dependents who travel via the USA will pay their own rail fare from port of arrival to the Canadian Border which is recoverable in whole or in part after arrival in Canada to the extent allowed by the regulations in force from time to time. (For information about refunds see para 8 of this Order.)
 - (b) Higher class ocean and Canadian rail transportation, may be secured if available, upon payment in advance of the difference in cost.
 - (c) Sleeping car accommodation, meals on shore and gratuities on ship or on shore, are not paid by the Canadian Government.
2. The provision of transportation (and refunds where such are granted) as described in this Order, is retroactive to the outbreak of war.
3. Transportation will be subject to shipping restrictions. Normally accommodation will not be available for dependents on the same ship with members.
4. The provision of transportation is subject to the granting of "Exit Permits" by the UK authorities. Dependents who do not possess "Canadian domicile" acquired by residence in Canada, are subject to Canadian Immigration regulations on entering Canada.
5. Transportation will be provided for one journey only to Canada for any dependent. All dependents, 16 years of age or over, will be required before sailing, to declare their intention to take up permanent residence in Canada. After arrival in Canada they will not be given Canadian Exit Permits to return to Britain while the war continues, and if any succeed in returning by other means, they will not become eligible for free transportation a second time.
6. Normally a dependent (other than one having "Canadian domicile"—as defined in para 4), will not be eligible for free transportation until the member is returning to Canada for discharge or some other permanent purpose. No exception to this general policy will be made unless settlement arrangements in Canada have first been approved by Canadian Immigration authorities.
7. Application for transportation and inquiries in connection therewith, should be made direct to the Canadian Commissioner of Emigration, Sackville House, 40 Piccadilly, London, W1.
8. Application for refund—(a) by dependents who returned to Canada at their own cost, before this scheme of free transportation came into effect; and (b) by those who may be given refund of USA rail fare as mentioned in 1 (a) of this Order, should be made direct to the Immigration Branch, Department of Mines and Resources, Ottawa. Refund at minimum rates will be made only to dependents in Canada.
9. Attention is directed to Overseas RO 1261 and 3744 on the subjects of "advances from deferred pay" and "Marriage—Cdn Army Overseas".

3364—TREATMENT OF ENEMY PRISONERS OF WAR ON CAPTURE

—3364

1. It is desirable that all ranks should be aware of the general principles which should govern the treatment of enemy prisoners of war, with particular reference to their treatment immediately after capture.
2. The treatment of prisoners of war is governed by the International Convention relative to the treatment of Prisoners of War (Geneva 1929) printed as Amendment 13 (January, 1936) to the Manual of Military Law.
3. The Convention provides in Article 2 that "Prisoners of War are in the power of hostile Government but not of the individuals or formation which captured them. They shall at all times be humanely treated and protected particularly against acts of violence, from insults and from public curiosity. Measures of reprisal against them are forbidden."
4. In Article 3 it is laid down that prisoners of war are entitled to respect for their persons and honour.

NOTICE BOARD INFORMATION

5. Instructions as to the treatment of prisoners of war are contained in Field Service Regulations, 1930, Vol I, Section 126, para 7, as follows:—

“It should be noted that Prisoners of War are frequently captured in an exhausted condition though unwounded. In these circumstances examination will not yield results, and for that reason as well as for reasons of humanity arrangements should be made for supplying food and drink to such prisoners as are manifestly in need of stimulation on their arrival in divisional collecting posts.”

6. The treatment of prisoners of war will be in accordance with the above principles. Care should be taken to see that when interrogated the prisoner of war is in a fit condition to answer questions. His treatment from time of capture and during interrogation should be firm and fair. He should be given food and drink at regular intervals and if he is wounded, every care should be taken to see that he receives the same treatment as Canadian troops. There should, however, be no fraternization with a prisoner of war.

7. It should be borne in mind that special care must be taken to preserve any documents which the prisoner of war may have in his possession.

8. It will be appreciated that it is the duty of a prisoner of war during operations, to escape or to impede his capture if he can do so. It is equally every soldier's duty to prevent with such force as may be necessary, any such action by a prisoner of war who may be in his keeping during operations. The treatment of prisoners of war in the battlefield will, however, always have regard to the principles set out in paras 2, 3, 4, 5 and 6 above.

9. Only when special circumstances of a particular occasion make the binding of a prisoner while still on the battlefield imperative and when there is no feasible alternative will such measures be adopted, and then only so long as such special conditions exist.

10. The general binding of prisoners of war is strictly forbidden.

3427—OCTU—APPLICATION BY INDIVIDUAL SOLDIERS

—3427

A. GENERAL

1. In conformity with the policy in effect in Canada, permission is granted for any soldier serving in the ranks of the Cdn Army Overseas to make application for OCTU.

2. This in no way relieves the CO of his responsibility for seeking out and recommending for OCTU all men now serving in the ranks whom he considers to possess the necessary qualifications. Junior officers will be encouraged to bring to notice the name of any man who might be considered for eventual commissioning, and when men who are fitted to hold commissioned rank are not earmarked as prospective OCTU candidates it is evidence of failure to co-operate in one of the essential needs of the war effort. Recommendations for OCTU will be accepted at any time.

3. A new application form (CMHQ 1000:11b—obtainable from No. 1 P & S Det, RCASC) will be taken into use immediately for all OCTU candidates. When a soldier desires to make application for OCTU he will be furnished by his CO with this application form. The applicant will complete the form in part, in his own handwriting. The CO will then interview the applicant and will forward the application to CMHQ. Such applications will not receive priority over those already on file at CMHQ.

4. A CO in forwarding an application may request deferment for a period not exceeding three months in order that he may more adequately assess the candidate, or to permit applications to be completed for candidates already under consideration by the Unit Selection Board.

5. In the event that it comes to the notice of higher authority, through Selection of Personnel Section, Records, or other sources, that an individual serving in the ranks has, apparently, the necessary education and intelligence, an enquiry may be directed to his CO asking whether it is proposed to recommend him for OCTU. If the reply is in the negative, instructions may be issued for the soldier to be interrogated by his CO to determine whether he desires to apply for a commission. If so, his application will be forwarded to CMHQ.

B. QUALIFICATIONS

6. Long and faithful service is not to be regarded as sufficient qualification. Before making application, the soldier should carefully consider to what degree he possesses the following qualifications and characteristics on all of which he will be carefully assessed.

- (a) *Power of leadership*.—A leader must inspire confidence. To do so he must possess better than average intelligence, endurance, judgment.
- (b) *Personality*.—Ability to approach, to attract and to influence others.
- (c) *Appearance*.—A soldierly and confident bearing at all times.
- (d) *Initiative*.—Ability to originate and improvise.
- (e) *Reliability*.—Trustworthiness in every respect including a reputation for carrying out willingly, speedily and efficiently, any appointed task.
- (f) *Habits*.—A way of life and thought. Loyal, co-operative, temperate.
- (g) *Conduct*.—A clean record or clear evidence that past indiscretions will not be repeated.
- (h) *Knowledge of arm*.—Better than average.

NOTICE BOARD INFORMATION

- (i) *Education*—Junior matriculation is not essential, but education should approximate that standard. The requirements of RCA, RCE and RCCS necessitate a knowledge of mathematics approximating matriculation standards. Every opportunity for candidates to refresh on educational subjects will be provided at the Pre-OCTU School and deserving candidates whose education is below standard will be given special attention and consideration. Applicants for OCTU should prepare for the Pre-OCTU School by individual study. Particulars of the requirements of the school may be obtained from unit Educational Officers.
- (j) *Experience*—Normally at least six months experience in a field unit or formation is expected. Service as an NCO is desirable but will not be insisted upon if a candidate has clearly demonstrated qualities of leadership. A candidate may apply for commissioning in another arm if his educational, civilian and military experience make him suitable for training in that arm. A soldier possessing technical qualifications should apply for commissioning in the arm where his knowledge will be of greatest value to the army generally.

C. PROCEDURE

7. When a soldier desires to make application for consideration by the OCTU Selection Board, he will apply to his CO for OCTU application form (CMHQ 1000:11b). The applicant will complete this form in Part "A" in his own handwriting.
8. The CO will then interview the applicant and will:—
- (a) Recommend him for consideration by the OCTU Selection Board, or
 - (b) request the OCTU Selection Board to defer the recommendation for a period not exceeding three months, or
 - (c) recommend the candidate as unsuitable for consideration by the OCTU Selection Board. The CO will set forth in full in the application, his reasons for considering the candidate unsuitable.
9. COs will, under no circumstances, withhold applications from individual soldiers and all applications must be forwarded without delay to CMHQ.
10. In cases where the applicant receives the recommendation of the CO he will be brought before the OCTU Selection Board.
11. When the applicant fails to receive the recommendation of the CO, the OCTU Selection Board will consider the candidate's qualifications as disclosed by the application and will determine whether or not an interview will be granted.
12. Candidates must have their "Q" cards completed and have taken the "M" test prior to appearing before the OCTU Selection Board. The CO will endeavour to arrange the necessary interview with a representative of the Selection of Personnel Section, but failure to do so should not delay the application being forwarded. If necessary, CMHQ will assume responsibility for completion of the "Q" card and "M" test.

3437—VENEREAL DISEASE—DEFENCE REGULATION 33B

—3437

1. A Defence Regulation (33B) has been passed in order to check the spread of venereal disease.
2. The Regulation applies to men and women in the Services and civilians alike and provides that, if there is good reason to believe that any person has been spreading venereal disease, that person may be compelled to be examined and, if necessary treated for it. This system will only work if anyone suffering from the disease reports to a medical officer the name and address or any other particulars of identity of the person from whom it is believed to have been contracted.
3. *Any member of the Cdn Army who undergoes treatment for venereal disease is urged to make the fullest disclosure to the medical officer of the facts or suspicions as to the source of the infection in order that the spread of venereal disease may be controlled and reduced.*
4. This does not lead to the person whose name is so reported being punished in any way. It only means that that person will be called upon to be examined and if necessary, treated, if someone else sends in (or has already sent in) a similar report about her (or him).
5. The information given in such a case is treated as confidential. The person named in the report will not be told who made the report. *No legal or other liability attaches to those who report a person's name provided they do it in good faith, believing that what they say is true.*

3694—SOLDIERS' PERSONAL PROBLEMS

—3694

1. It is apparent that the type of assistance available under the Legal Aid Scheme, Overseas RO 3215, requires clarification. It is still the duty of Regimental Officers, Paymasters, Medical Officers, Chaplains and Auxiliary Service Officers to give prompt assistance to any soldier seeking advice with regard to his personal problems.
2. Commanding Officers, Chaplains and all Officers or Auxiliary Service Supervisors, dealing with cases of cessation of normal domestic relations, or temporary estrangement between husband and wife, should, in all cases, strive to effect a reconciliation and to prevent a home being broken up on account of a temporary estrangement or for insufficient cause.
3. In order that the soldier's personal problems may be dealt with expeditiously, multiplicity of effort on the part of those assisting the soldier avoided, and, so far as possible, the institution of more than one enquiry into the soldier's affairs at the same time eliminated, such problems will be dealt with as set out hereunder:—
 - (a) Unit Officers, Chaplains and Auxiliary Service Supervisors will give such advice and assistance as lies within their power (subject to the reservation that unqualified persons shall not attempt to give legal advice). If the problem is such that for some reason it is not one that the advice and assistance which can be given by Unit Officers, Chaplains and Auxiliary Service Supervisors will bring the soldier's problem to a satisfactory conclusion, it will be dealt with as hereinafter noted.
 - (b) All questions primarily affecting the soldier's pay, including AP and DA, shall be referred to the Unit Paymaster who will deal with them through normal pay channels.
 - (c) Personal problems of the soldier, other than those covered by sub-paras (a), (b) and (d) which are causing him worry and cannot be dealt with in the field, for example cases in which he is worried over home conditions and merely wants investigation of the same, shall be referred to Canadian Military Headquarters (attn: AAG (Pers)) as follows:—
 - (i) Units on a Field Return basis through Cdn Sec, GHQ, 2nd Echelon, to Canadian Military Headquarters.
 - (ii) Units on a Part II Order basis, direct to Canadian Military Headquarters.
 - (d) All civil legal aid matters on which legal advice is required including domestic relations cases in which legal action is to be taken or is contemplated, shall be referred to Legal Aid Officers as provided in Overseas RO 3215 and the Legal Aid pamphlet referred to therein.
4. The soldier shall have the right to insist that his purely personal problems be not dealt with through official channels. Such cases shall be handled as in the past without reference to Canadian Military Headquarters (AAG(Pers)). Officers giving assistance will ensure that the soldier's problems are not already the subject of an official investigation.
5. Officers from whom soldiers seek advice will ensure that their problems are dealt with through the proper channel. Doubtful cases should be submitted to Canadian Military Headquarters, as in para 3(c), (i) and (ii) above.
6. It should be made clear to the soldier that:—
 - (a) Disclosure of his purely personal problems will not prejudice him in his capacity as a soldier in securing promotion to which he is entitled or otherwise.
 - (b) His affairs, when dealt with through official channels, will be handled in a confidential manner, and will not be brought to the notice of anyone who is not immediately concerned.
7. It is particularly important, in the interests of both the soldier and the Service, that certain types of cases be dealt with through official channels from the start, e.g., cases which are likely to involve application for compassionate return to Canada, in regard to which official investigation in Canada is essential before action may be taken overseas.

3. Commanding Officers will be held financially responsible for damage to small arms where the damage is due to causes other than fair wear and tear. (KR (Can), Para 37—Art 682, FR & I (O).)

2202—PURCHASE OF FOOD AND TOBACCO BY TROOPS ON THE MARCH

—2202

1. Instances have arisen recently where troops on the march, on being halted in villages, have been permitted to fall out and purchase food and tobacco in the village shops, with the result that no supplies are available for the inhabitants.

2. In such cases, the troops, who are provided with adequate rations and who have further provision made in the canteens run by NAAFI and Auxiliary Service Organizations, are buying and consuming the limited supplies available for the civilian population.

3. Conduct of this nature is not only a breach of march discipline but is also calculated to damage the good feeling which should exist between the Army and the civilian population.

4. Os C will ensure that when on the march or in convoy, troops are forbidden to fall out for the purpose of entering the shops of any town or village in which they may be halted.

 - (a) Para 3 hereof (in respect of civilians performing duties or rendering services in the interests of the Canadian Army Services).
 - (b) "MT Drivers' Regulations, Canadian Army Overseas."
2. (a) Except as provided in para 3 hereof, the officer, NCO or other rank authorizing the carriage of any civilian in a Canadian military vehicle will in every case, prior to the commencement of the journey, obtain a release in respect of that journey on Form Can F ST 1073A, signed by each such civilian personally. Prior to the signing of such release, the said officer, NCO or other rank will ensure that such civilian understands the meaning of the form which he or she is signing.
 - (b) Chapter 2, para 44 of the pamphlet "MT Drivers' Regulations, Canadian Army Overseas", authorized by Overseas RO 3510, headed RECREATIONAL USE.

 - (d) Other than persons referred to in para 3 hereof, no civilian will be carried in any Canadian military vehicle unless he or she has first signed a release as provided for in this para. This requirement may not be waived under any circumstances.
 - (e) The CO (or officer acting for him in his absence) who is authorizing the journey will either complete Vehicle Release Form Can F ST 1073 or endorse the Transport Work Ticket (AF G3518), prior to the commencement of any recreational journey within the provisions of the orders referred to in para 1(b) hereof.

Provided, however, that before transporting any such persons in Canadian military vehicles the officer furnishing such transportation shall require the production by such person of a certificate of identity signed by the Assistant Director of Auxiliary Services, Canadian Military Headquarters.
4. Commanding Officers will ensure that the above is brought particularly to the attention of all personnel concerned with the control, allotment and operation of military transport.

2572—RATIONED FOODSTUFFS—ARMY RATIONS—PURCHASING AND TRADING IN—(S)

—2572

1. Instances have occurred of units having purchased nationally rationed foodstuffs from sources other than NAAFI and exchanging Army rations for non-rationed foodstuffs.
2. These practices are contrary to the instructions contained in Overseas RO 2466 and 3176 and deprive the local civilian population of its proper share of rationed foods.
3. Rationed foodstuffs will not be purchased from the messing cash allowance or by messes from any source other than NAAFI, to whom quantities of certain rationed foods are released periodically for sale to messes.
4. Army rations are Government property and will not, under any circumstances, be disposed of by sale, gift or barter. If a unit or mess builds up a surplus of any particular item, under-drawal will subsequently be made in order to eliminate the surplus.

3115—BOTTLES, WATER—CARE

—3115

1. Investigation has shown that the rusting of the metal components of the water bottle stoppers is due to carelessness on the part of the individual. To obviate this fault, the following routine will be carried out after parades or exercises, etc, where the water bottle is used:—

- (a) The water bottle will be emptied of its contents and inverted in such a manner that air can circulate inside.
- (b) The cork and all metal components will be thoroughly dried to prevent deterioration and rust.

3315—"A" AND "B" VEHICLES—ENGINE GOVERNORS

—3315

1. The engines of some "A" and "B" vehicles are fitted with a governor, the function of which is to limit the engine speed to a safe maximum and thus prevent damage from excessive revolutions; it is not designed to limit the power developed by the engine or to cut down the road speed to comply with traffic regulations.

2. In spite of repeated instructions on the subject of governors, engines continue to be returned for heavy repairs made necessary through damage directly attributable to irresponsible tampering with governors.

3. The only persons having authority to check, adjust and seal engine governors on "A" and "B" vehicles are the following:—EMEs, RCOC or their representatives, OsIC RCASC Workshop Platoons, inspection officers of the MT Inspectorate, or a representative of the manufacturers.

4. The following instructions will be observed by all concerned:—

- (a) Drivers of vehicles will be instructed that the governor seals on vehicles must not be tampered with in any circumstances and that, in the process of cleaning the engine, etc, care must be taken to avoid damaging seals or sealing wires.
- (b) Every driver taking over or handing over a vehicle, no matter for how short a period, will satisfy himself that the governor seal is intact. If it is not intact he will report the matter immediately.
- (c) Officers concerned with the care and maintenance of vehicles will examine the governor seals at every inspection and at frequent surprise inspections.

5. Immediate disciplinary action will be taken in cases in which the above instructions are disregarded.

2. An initial issue of this revised pamphlet will be made direct to formations without indent on the basis of one pamphlet per vehicle, plus one copy for every officer and NCO.

3. The instructions contained in this revised pamphlet will be followed by all ranks. Particular attention is called to the note on the front cover as follows:—

—3603

1. A case has come to notice of costly damage to unit equipment, resulting from the cleaning and lighting of a portable cooker in a confined space.

2. The modification to this equipment laid down in OER B.257 is designed to reduce the necessity for frequent cleaning, and will, therefore, reduce the fire hazard. The instructions contained in this OER will be strictly observed.

3. Before lighting in a confined space, the cooker will be removed as far as possible from walls, tarpaulins or other inflammable objects, and care will be taken that no excess petrol is allowed to remain on cooker frame or surrounding space.

3634—WRISTLET WATCHES, UNIT EQUIPMENT—CARE AND PRESERVATION —3634

1. With a view to ensuring that wristlet watches which are unit equipment remain waterproof as far as possible during use, it is essential that units should not remove the backs of watches. This will be done only in RCOC workshops when the articles are sent for repair.
2. It is impressed on all concerned that a watch must be taken off when the user is washing or bathing.
3. When winding, the user should be particularly careful to give the winding button a half turn backwards, i.e., towards 6 o'clock, immediately the operation of winding is completed.
4. When taken off and placed on a hard surface, care should be taken to ensure that the watch is laid face upwards. This will add to its life and avoid, to a great extent, the glass becoming scratched.

3651—VEHICLES—AVOIDANCE OF DAMAGE TO GPO PLANT AND CABLES —3651

1. Drivers of tracked and wheeled vehicles will be instructed to exercise the greatest care to avoid damage to Post Office line plant such as telegraph poles, telephone kiosks, cables and cable joint box covers.
2. Particular care will be exercised in the use of ground spikes for recovery operations in the vicinity of underground cables. These are laid, to a great extent, along road margins, and their existence is usually indicated by appropriate signs or by the presence of manhole covers and distribution poles at intervals along the routes of the cables.
3. Should damage inadvertently be caused to any GPO telecommunications plant, it is important that the Post Office authorities be advised at once. This can be done by telephoning to any Post Office exchange, asking for the supervisor and giving details of the location and, if possible, the general nature of the damage done. The rank, name and unit of the soldier reporting the damage will be given.
4. The action required by para 3 above is in addition to the compiling and forwarding of Road Accident Reports in all appropriate cases, as required by Overseas RO 2183 (1) (as amended by Overseas RO 3227).

2. Razor blades are available to all ranks under the provisions of Overseas RO 2131 and troops can normally obtain one blade a week from Service canteens.
3. Cdn Army personnel are not permitted to purchase blades from shopkeepers. Supplies in the shops are intended for the civilian population who have no other means of obtaining them.

2. SANITATION

2-A

Coys must keep all kitchen refuse pits clear of insects by filling in a couple of inches of dirt after anything is dumped.

Latrines should also be checked every day for this.

3. NOTES ON 426 FUZE "PIAT" BOMB

The fuze 426 will function at 50' either by direct action against face hardened armour or by sudden retardation of the bomb. It will function on hard ground at 100 yds range. The splinter effect on water is very considerable.

The PIAT bomb has a fragment that is driven back towards the firer with great velocity, sufficient to kill at 125 yds. At ranges less than 250 yds, the firer and loader will be either prone or in a slit trench and will wear steel helmets. No tps or spectators will stand closer than 70 yds to the firer when engaging targets at short ranges. When used for high angles of fire at buildings etc, these precautions are not necessary.

Though the possibility of 'blinds' is greatly decreased with fuze 426, these do occur frequently. On NO account must the bomb be touched, but must be destroyed in situ, taking all precautions against the splinter effect. A drop of 3 ins when the bomb is 'armed' will explode it.

Rough handling trials show it is safe to carry with the fuze fitted under all conditions of service to fwd posns.
