Order No.13

1. THE REWARD OF A BRAVE MAN

1. The following story, written by a Canadian Major who has received great assistance from Italian partisans in liberating important territory, will be repeated in all unit orders so that all ranks may appreciate the hardships that may be caused to a valued assistant by wilful looting:

"CIRILLI, Gaetano and his son, aged 16, decided some time ago to fight the Germans. They stored their personal belongings in the house of a man named BUGGI, in the hamlet of S GIACOMO, near RUSST, moved Mrs CIRILLI and her infant daughter to the house of a friend at 17 Via BACCARINI, RAVENNA and then joined the partisans. I met the son and the father in the marshes NW of RAVENNA where they had been leading a precarious existence for over a month, often in contact with the enemy.

After the liberation of RAVENNA, the partisans were ordered to concentrate there, to rest and refit. CIRILLI, Gaetano went "home" to 17 Via BACCARINI. On 14 Dec 44 a boy came from S GIACOMO on a bicycle to tell him that Canadian soldiers had robbed him of all he possessed. He came to see me for help. I obtained a travelling permit for CIRILLI and went to S GIACOMO.

The scene was one of complete desolation and destruction. The looter had broken into the house with weapons in hand, had stolen everything of any value and carried it away in their truck. What they did not consider worth carrying off they destroyed on the spot.

CIRILLI, Gaetano picked up a few things which were lying on the floor, a pair of his wife's worn slippers, a torn table napkin, a shawl and some baby clothes. These he put into my vehicle.

I made many enquiries but could not discover anything about the looters. The two Italians who were present when they arrived had taken fright when threatened and had gone to a house some 250 yards away. They could tell me nothing. So many troops have been through the area that it would be impossible to trace the thieves.

The results are that a brave man, his wife and two children are now destitute. The little they had left is gone and there is now no way of compensating them because linen can no longer be obtained, warm clothing and bedding have long since vanished from the market. They are left with the clothes in which they stand."

(1 Cdn Corps letter A/Q 5-4-2)

2. TIRE MAINTENANCE

1. The supply of natural rubber tires to the Allied Armies has now reached a critical point. General Eisenhower had warned the US Armed in Europe that this shortage will result in 10% of their vehicles being off the road by the first week in Feb. The situation in the Italian theatre is fully as serious.

2. The introduction of synthetic tires, now reaching us in small quantities will be of only slight assistance. Synthetics have only about half the tire miles of crude rubber tires, even when the best possible care is taken of them. In any case, the production of synthetic tires is as yet very small and threatens to decline still farther.

(P.T.O.)

3. It is imperative, therefore, that immediate and aggressive steps be taken to preserve the tire we now have. This must be done in two ways. First of all it must be impressed on all concerned, by the broadest possible publicity, just how serious the shortage is. Secondly, it is essential that drivers know how to preserve their tires, both crude and synthetic, and that by repetition and example, and disciplinary action where necessary the following rules are enforced:-

- (a) Obey authorized speed limits.
- (b) Do not overload.
- (c) Avoid harsh braking and rapid accelerations
- (d) Don't bounce in and out of pot holes, over logs, curbs, etc.
- (e) Check tire pressure daily.
- (f) Inspect all tires daily for superficial damage.
- (g) Remove stones, flints, etc.
- (h) Report cuts, abrasions and signs of irregular wear at once so that immediate action can be taken.
- (i) Change tires around regularly---every 1000 miles including spare.
- (j) Remove tires for recapping when tread is about to disappear.

4. Data prepared by the technical research personnel of Goodyear Tire and Rubber Co., indicate that a combination of 20% overload and an increase of speed from 25 to 35 mph, will reduce the tire life to 56% of normal. Inflation of 60 pounds rather than 70 pounds will result in a further 10% loss. It can be seen, therefore, that if inflation is watched and overloading and over speeding discontinued, it may be possible to achieve almost the same mileage with synthetics as experienced with crude rubber tires when these factors were not closely watched.

5. Failure to observe these regulations and precautions will most certainly result in the grounding of a substantial proportion of our transport within the next few months. Commanders at all levels will, ensure, therefore, that the contents of this letter are made known to all ranks.

(L. Cdn Corps Letter A/09-6)

3. POSTAL REGULATIONS

- 1. The following postal regulations are published for the guidance of all concerned:-
- 2. The letters (CA) CMF will not be written on the face of Air Mail Letters, Address only on the face of the envelope. Air letters need not be censored regimentally but will have the following certificate written on the reverse side - "I certify that on my honour that the contents of this letter refer to private and family matters". Signature will include name and initials only no address or rank.
- 3. Ordinary letters must be censored regimentally before being turned in to the post office, nothing to be written on the reverse side of the envelope. CA(CME) will be written on the face of the envelope.

2. Correspondence will not be franked or censored in units. The envelope, which must not bear the unit censorship stamp, will be left unsealed and the correspondence will be forwarded by the writer's unit under official cover to Chief Base Censor, NA District or to Chief Base Censor, C.M.F. The nature of the enclosure will be stated on the official cover, e.g. Letter for Argentine.

3. At the head of the letter the writer will put his name and rank (No number, unit or formation) together with the civil address of a friend or relative in the UK. Alternatively, he may give the "c/o Chief Base Censor Algiers, or Chief Base Censor, Naples according to the command in which he is serving. This address, which is required for the purpose of receiving replies, will also be put on the back of the envelope. A slip must be inserted in each envelope giving the military address of the writer.

4. Airgraphs and green envelopes will NOT be used.

5. Photographs, picture postcards, sketches or pictorial matter of any kind will NOT be permitted other than snapshots and unmounted photographs of a personal nature. Personal photographs showing uniforms recognisable as appertaining to any particular formation war material or equipment or background recognisable as of any particular locality, are forbidden. The mailing of official military documents including orders, reports, maps, etc, is NOT permitted.

6. The exact geographical location of any unit, will NOT be disclosed and no information likely to be of naval, military or political or economic value to the enemy will be included. No mention will be made regarding the location, identity, movement or prospective movement of Allied ship or aircraft, troop or supply movements, plans and forecasts or orders for future operations (whether known or merely surmised), exercises and training programmes indicating possible future roles, unit or force strength, or casualties.

7. Use of the civil post is forbidden. Postage, whether for surface or airmails, will be prepaid at the appropriate rates which may be ascertained at any British or Empire Army Post Office. In the case of registered correspondence the fee for registration will be prepaid by means of postage stamps affixed to the envelope of the letter. The outer cover addressed to the Chief Base Censor will be registered free of charge and the writer's unit will furnish him with the receipt. Chief Base Censor will register the actual letter with the Army Post Office and forward the receipt to the writer.
